

# Adding Music or Sound to Alice

Download a song or sound

Or record part of a song or sounds in audacity

Must be an mp3

---

## Adding Sound/music in Alice

1. Click on the **World or Ground** object (top left section)
2. Click on Properties (bottom left section)
3. Click the **+** beside "Sounds"
4. Click on **Record sound**
5. Name it
6. Press record and Play the song (for 30 seconds)
7. Press stop

*This will save the method in the sounds section*

8. **Drag the "music method"** into the Editor screen of "my world method"

---

## ***Another way to play the music throughout the animation:***

1. Create a method called "play music"
2. Drag the music method into the "play music" method
3. Then click on **CREATE NEW EVENT** (top right)
4. Click to add another "When world starts" event
5. Drag the **"Play Music"** method to replace "do nothing"  
The music should play while you play the world.
